

Hello and welcome to all local residents of **Bugle and surrounding villages**. We are Bugle Pharmacy, your new local pharmacy. We are pleased to announce that we are up and running now, **offering both private and NHS pharmacy services** to the local people. We dispense both NHS and private prescriptions.

Free Prescription Delivery Service

We offer free delivery service. Please telephone the pharmacy for more information.

Repeat Dispensing Service

We offer a repeat prescription service which means that your regular prescribed medicines can be obtained **directly from the Pharmacy**. Your repeat prescription will be dispensed so that your medicine is ready to pick up **at a convenient time**. All that is needed is for patients to ring us with their request or to hand in their repeat slip directly to us in the pharmacy. Please ask a member of the Pharmacy team for more information about this service.

Repeat Management Service

We can **re-order your medicines** on your behalf and then you can either **collect** your medicine **from the pharmacy**, or we can **deliver free of charge**.

Over the counter medicines and advice

We have a wide range of well-known products available, many of which you can only buy from a pharmacy. If you wish, you can **talk in confidence** to the pharmacist about common ailments and their treatment. Pharmacies are also useful places to go for advice on maintaining a healthy lifestyle. You are always welcome to come in and help yourself to the display of healthcare leaflets covering many of the topics we frequently get asked about. Look out for the new ones each month!

Emergency supply of medicines

We can provide emergency supply of certain important medicines on the weekends when your surgery is closed.

Flu vaccinations - We offer NHS and private flu vaccines.

Advice on Health and Lifestyle Issues

We can advise on many lifestyle and health issues. Come in and help yourself from our display of free healthcare leaflets covering many health topics. Look out for our regular displays on different health topics. Please ask our pharmacist if you require further information on any topic or condition.
