

## **Councillor Steve Trevelyan – November 2025 Report**

Nothing much has really happened that im guessing you don't already know about, other than some bits from the cap meeting that no one from attended...I wont hold that against you as it was as equally as tedious...

The Police was there and stated they are really going to come down on youths riding illegal ebikes

The speed restriction has lifted on A391 which is great. Im now trying to get a sign on the A30 stating ignore sat Nav continue to A391 Victoria ( or something similar)

Lots of talk of flooding in various areas but it seems to be a national problem as I went though 18 floods today on the way to Newton Abbott.

Was happy to mention Bugle and its 100<sup>th</sup> year on Radio Cornwall last week and thank god ,as when asked what brings people to Bugle I could hardly say drugs !

I have just got home from a gruelling day working in the rain and have 100 plus emails to trawl through so apologise for not gracing your good selves...

Regards

Steve
