

I have not got a great deal to report other than the following...

1. Dog waste in the skate park field is getting to a ridiculous level with many residents complaining to me... I know its very hard to police but until we invest in cctv and lighting the area is not fit for purpose. Not so much now during the winter, but in the drier times of the year the dog waste will be a danger to childrenim guessing the area is avoided by decent folk but it does not have to be this way. Similar problems are also prevalent in Bugle Park.....yet strangely Treverbyn park is pretty good ...go figure !
2. With my CHP payment I have 2 EOI's , both in Bugle. One is double yellows from the junction at the spar shop down mollinis road. I have had so many complaints about it, with photos of vehicles parked on the junction causing a great hazard to road users.
3. The other is to tarmac an area of grass opposite the council house at Carnsmerry, just where they meet the terraced houses. This area has been parked on for ever. The parking is not the issue , it's the quagmire it creates every winter .. its unsightly, with mud being dragged onto the road....its a wide area and is a natural parking area albeit the wrong surface, where the grass barely grows.
4. After driving past the broken glass for over a week I could not bear it no longer and cleaned it up myself...it took 25 mins...was the PC aware of this? Maybe we should avoid glass in bus tops until the natives learn how to behave..another reason why cctv is warranted.
5. Lastly regarding Council business I will leave it to Jamie to relay that, the majority of it like debating whether you should call a chairman ,chair or chairman is one of the reasons why I have no time for these woke farces...while we were debating trials and the need for juries , others thought time was well spent debating this rubbish...

Regards Steve
